<b>TOTAL</b>			<b>25.14</b>	

Please note that Consortium agreements are only necessary for collaborative projects and research for CSO projects

All applicants are advised to read the Guides for Applicants in tandem with this call fiche.

### **Evaluation procedure:**

- A one-stage submission procedure will be followed
  - Proposals may be evaluated remotely
  - The evaluation criteria and sub-criteria (including weights and thresholds), together with the eligibility, selection and award criteria, for the different funding schemes are set out in Annex 2 to this work programme.
- Proposals will not be evaluated anonymously.

### **Selection of proposals**

1. A separate ranking list will be established for each of the eight indicative budgets per activity as indicated in the table above. At least one proposal per topic will be selected

<sup>20</sup> Please note the indicative amount available for topic 4.0.2.3, which is less than the maximum EC contribution for collaborative projects of EUR 1 000 000

provided that at least one proposal submitted under that topic scores above the threshold.

2. The 'topic quotas' in the table above indicate the minimum number of proposals that will be retained for each topic under each ranking list (provided that this number of proposals obtains an evaluation score above the threshold and that sufficient budget for the activity is available). In the case, for example, where the topic quota is two proposals and four score above the threshold, then the first two are selected, and the other two 'extra' remain on the ranking list for the budget by activity, along with the other 'extra' proposals (i.e. those proposals still above threshold after the minimum topic quota has been fulfilled). Once the topic quotas are filled, these 'extra' proposals will be considered if money remains in the budget for the ranking list. The reserve list for each ranking list per budget will be drawn up according to the same criteria.

3. If money is left over after the selection of proposals for financing from the ranking lists per activity, proposals will be selected on the basis of the following criteria: priority is given first of all to proposals under topics where the 'at least' quota has not been fulfilled. Next, priority is given to proposals on the basis of score. Where there is more than one proposal with the same score, priority is given to the proposal which comes from the topic which has received the higher number of proposals evaluated above the threshold.

Any money remaining unspent from the topic SiS-2008-2.2.1.2 (for example where no appropriate structure is likely to arise from the call for tender) will be re-attributed automatically to Topic SiS-2008-2.2.1.1.

### **Indicative evaluation and contractual timetable**

Evaluations are expected to be carried out during the month of May 2008. It is expected that the grant agreement negotiations for the shortlisted proposals will be open in July 2008.

### **Particular requirements for participation, evaluation and implementation**

The minimum number of participating legal entities required, for all funding schemes, is set out in the Rules for Participation<sup>21</sup>. A summary of the minimum participation requirements for the instruments used in this call is given in the following table. These participation criteria are also criteria for eligibility of the proposal.

<b>Funding scheme</b>	<b>Minimum conditions</b>
Collaborative project	At least 3 independent legal entities, each of which is established in a MS or AC, and no two of which are established in the same MS or AC.
Co-ordination and support action (co-ordinating)	At least 3 independent legal entities, each of which is established in a MS or AC, and no two of which are established in the same MS or AC.
Co-ordination and support action (supporting)	At least 1 independent legal entity (see additional criterion, below)
Research for the Benefit of Specific Groups – Civil Society Organisations (BSG-CSO)	At least 3 independent legal entities, each of which is established in a MS or AC, and no 2 of which are established in the same MS or AC. The minimum 3 legal entities must include at least 1 civil society organisation (see definition in the Work Programme) and at least 1 research organisation.

<sup>21</sup> MS = Member States of the EU; AC = Associated country. Where the minimum conditions for an indirect action are satisfied by a number of legal entities, which together form one legal entity, the latter may be the sole participant, provided that it is established in a Member State or Associated country

Please note: for the purposes of this Call for Proposals, the minimum participation condition for a Co-ordination and support action (supporting) is 'at least one independent legal entity which is established in a Member State or in an Associated Country'. This is also an eligibility criterion.

**The following participation criteria are also criteria for eligibility of proposals under the specific topics indicated:**

- For topic *SiS-2008-1.2.2.1, Promotion of pan-European and international awareness of the ethical aspects of Security technologies*, the following rules apply for Co-ordination and support actions (co-ordinating): the proposal must include a transnational European (EU or Associated States) dimension and an international dimension (particularly but not limited to Asia and North America).

Under this 2008 Science in Society Work Programme, "*Collaborative research projects (small or medium-scale focused research projects)*" are **those which request a maximum EC contribution of €1.000.000. This financial limit constitutes an eligibility criterion and proposals for "*Collaborative research projects (small or medium-scale focused research projects)*" outside the limit will be excluded from the evaluation process.** Please note the indicative amount available for topic 4.0.2.3 (Social Impact Assessment of Research) of EUR 800 000, which is less than the maximum EC contribution for collaborative projects of EUR 1 000 000.

The forms of grant which will be offered and the maximum reimbursement rates are specified in Annex 3 to the Capacities work programme.
